

Discover Chicago's Shedd Aquarium

Saturday, July 20, 2019

Get up close and personal with all kinds of aquatic wildlife when you visit Chicago's Shedd Aquarium.

The **Oceanarium** brings you face to face with beluga whales, dolphins, sea otters and sea lions, and this popular exhibit recently got a whole new look to its animal habitats and hands-on exhibits. You'll encounter dozens of sharks in **Wild Reef**, where floor-to-ceiling windows give you a diver's-eye view of a Philippine reef teeming with live corals and more than 500 species of reef fishes in all shapes, colors and sizes.

You'll also wander through a lagoon and mangrove forest and visit a fishing village where residents saved their reef from destruction. You might catch one of the daily dive presentations at the **Caribbean Reef** to learn about Nickel the sea turtle, peek at a 7-foot moray eel, watch the Cownose rays swoop and flutter around you, and observe the silvery, streamlined tarpon shoot past while colorful parrotfish munch on coral - watch out as the bonnet-head shark swims by. You'll also enjoy a giant-screen spectacular **4D movie**, plus included in your all access pass is the **stingray touch** exhibit!

This is a fascinating and fun day for travelers of all ages. However, we ask that children be over age 6 as the three-hour drive each way can be too much for younger children. Lunch is on your own at the aquarium - bring your own or purchase it at the Shedd's food court.

Cancellation Policy: The cost of this tour is refundable until 60 days before departure, after which no refunds will be given. However, you are free to substitute another person in your place if you are unable to go.
